---

Professional Summary:

Frontend Developer with 3+ years of experience building modern, scalable web applications using ReactJS, Redux, TypeScript, RESTful APIs, and modern UI frameworks. Skilled at translating business requirements and Figma designs into responsive, high-performance interfaces aligned with enterprise standards. Strong background in reusable component architecture, performance optimization, and CI/CD integration. Collaborates closely with cross-functional teams to deliver user-focused digital solutions in agile environments, ensuring quality, scalability, and maintainability in every deliverable.

Professional Experience:

Application Developer – LTIMindtree
(Internal Project: Internal Web Portal)
Oct 2023 – Present

- Developed enterprise-scale, reusable UI components using ReactJS, Redux, TypeScript, HTML5, CSS3, and Bootstrap, improving modularity and reducing development time by 25%.

- Translated Figma designs into responsive, accessible, and cross-browser compatible interfaces, ensuring consistent UX across multiple modules.

- Integrated REST APIs securely and efficiently, enabling dynamic content rendering and reducing API latency by 15%.

- Implemented lazy loading, memoization, and optimized rendering, boosting application load performance by 30%.

- Conducted code reviews and unit testing with Jest, improving code quality and reducing regression issues.

- Collaborated with design, backend, and product teams in agile ceremonies to ensure timely and high-quality feature delivery.

Software Engineer – LTIMindtree *(Client: Carrier)*
Jul 2022 – Sep 2023

- Built modular, reusable ReactJS components for an enterprise web application, maintaining a consistent design system.

- Integrated front-end modules with backend APIs for real-time data rendering, reducing client-side errors by 20%.

- Optimized application performance through code refactoring, component memoization, and lazy loading, improving user experience.

- Participated in sprint reviews, demos, and release planning, ensuring alignment with project deadlines and quality standards.

- Supported CI/CD pipelines for automated builds and deployments, enhancing release efficiency.

Project Experience:

Project 1: Internal Web Portal – LTIMindtree
Role: Application Developer
Technologies: ReactJS, Redux, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Jest

- Delivered scalable UI modules for an internal enterprise application used by 500+ employees.

- Developed reusable components, reducing development effort for new modules by 30%.

- Implemented performance optimizations including lazy loading and memoization, improving page load times by 25%.

- Collaborated with backend and DevOps teams to streamline CI/CD pipeline integration and deployment automation.

Project 2: MN-FMB-Capstone 2.0 – LTIMindtree (Client: Carrier)
Role: Software Engineer – Frontend Developer
Technologies: ReactJS, JavaScript, HTML5, CSS3, Bootstrap, REST APIs

- Developed responsive UI components aligned with enterprise standards and design guidelines.

- Built modular components for reuse across multiple pages, enhancing maintainability.

- Integrated REST APIs for dynamic content rendering, ensuring secure and seamless data flow.

- Optimized frontend performance with lazy loading, memoization, and efficient state management, improving UX responsiveness by 20%.

- Coordinated with QA and backend teams to ensure production-ready releases with minimal defects.

Technical Skills:
- **Frontend:** ReactJS, Redux, Context API, React Query, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design
- **Testing:** Jest, React Testing Library
- **Build & Tools:** Webpack, Babel, NPM, Git, VS Code, Chrome DevTools
- **API Integration:** RESTful APIs
- **Monitoring & Reporting:** ServiceNow, Jira, Excel
- **Other:** CI/CD awareness, performance optimization, Responsive UI design, Figma Collaboration

---

Achievements & Certifications:
- **BlueVerse™ Certified Developer: Level 1** – Recognized for demonstrating foundational expertise in AI-driven development and innovation at LTIMindtree.
- **Gen AI Certification** – Successfully completed organization-led training on Generative AI fundamentals and applications.
- **Spot Award-Super Crew, LTIMindtree** – Honored for exceptional contribution to project delivery and teamwork excellence.
- **Pioneer Squad (Q2 FY26)** – Recognized for proactive collaboration and consistent performance across project milestones.
- **Team Player Badge** – **LTIMindtree** – Acknowledged for teamwork, communication, and commitment to achieving project goals.

Education:
Bachelor of Technology (B.Tech) – Electronics & Communication Engineering (ECE)
Adarsh Engineering College, Chebrolu, AP | 2016 - 2020
